# Hints to Improve Your Skills

## **Learn your Weapons**

You have to know which weapons are effective or when to proceed without weapons, depending on where you are. Plan how to use your weapons. At first, use your weapons to learn.

## **Be aware of all enemies.**

Find out their weak point. Challenge them by attacking without weapons. As your skills increase, you can conserve your weapons for later stages.

## **Study and review.**

Don't play without thinking! Review how you have played. This is not the conventional shoot-'em-up game; use your brain and your memory to strategize!
